▼ How do I invite my friends to connect with my Page via email?

Admins of Pages with less than 5,000 people connected to them **can import their email contacts** and invite them to connect with their Page. You can now upload a file containing your email contacts and Facebook will securely import them. You will then be able to suggest your Page to your contacts.

You can also suggest your Page to your email web contacts. Simply provide your web email address and password, and your contacts will be imported. You can then suggest your Page to them.

We will not store your password after we import your contacts. We may use the email addresses you upload through this importer to help you connect with friends, including using this information to generate suggestions for you and your friends on Facebook. If you don't want us to store this information, please go [here](#).

To access the email importer, visit the "Tell your Fans" section in the Resources tab of your Page Manager.
